Harvest 2008:

NW MI - Production in full swing. Some picking long & others short of estimates. Fruit size is larger. Quality is a challenge.

WC MI - Fruit is generally larger than usual; likely to pick long. Quality is not as good as hoped; various factors contributing to quality concerns.

SW MI - Harvest completed. Quality presented concerns.

NY - Likely to pick to estimate. Fruit quality is a challenge. Fruit size typical.

OR - Quality excellent; harvest conditions ideal. Will pick to estimate.

PA - Harvest completed.

UT - Quality is okay; fruit size a bit larger than normal.

WA - Quality decent. Harvest likely to be lighter than estimate.

WI - Quality decent. May pick longer than USDA estimate.
